Professional Experience

Information Technology Intern-(2025)

Butler County Community College – IT Department

- Supported campus-wide workstation troubleshooting and maintenance
- Configured and deployed **Intel EMA** for remote pre-boot access across all campus systems
- Assisted with networking, imaging, and endpoint support tasks

Studio Mechanic

IATSE 489 (2025 – Present)

- Provided technical support and equipment setup in fast-paced production environments
- Worked with electrical, mechanical, and digital systems under tight deadlines

Private Security Officer

St. Moritz Security Services (2023 – 2025)

- Monitored security systems and responded to incidents
 - Maintained detailed logs and incident documentation
 - Applied risk-mitigation and situational awareness practices
-

Projects

Home Linux Server & Network Infrastructure

- Built and maintained an **Ubuntu-based server** providing DHCP/DNS, firewalling, VLANs, NAT, and WireGuard VPN
- Designed a **zero-trust network** with segmented VLANs and enterprise-grade WAP coverage
- Implemented an **8TB NAS** storing IP camera footage
- Created automation scripts and rollback documentation
- Currently developing a **guest captive portal**

Campus Intel EMA Deployment

- Configured Intel EMA for **remote pre-boot access** to all campus workstations
- Improved IT troubleshooting efficiency and remote management capabilities

Windows Server & Active Directory Lab

- Built a virtual Windows Server 2019 environment
 - Configured **Active Directory**, **DHCP**, **internal NICs**, and multiple test user accounts
 - Connected multiple VMs to the domain for authentication testing
-

Education

AAS – Networking & Cybersecurity

Butler County Community College

- GPA: 3.6 — President's List

B.S. – Criminology & Criminal Justice (In Progress)

Slippery Rock University of Pennsylvania

Certifications & Training

- TestOut / CompTIA Labsim: **CyberDefense Pro, Hybrid Server Pro, Network Pro, PC Pro, Security Pro**
 - **HTB Academy** – Cybersecurity labs and hands-on training
-

Technical Skills

Networking

- TCP/IP, UDP, DNS, DHCP
- Subnetting, CIDR, VLANs, NAT
- Routing & Switching
- LAN/WAN troubleshooting
- Network segmentation & zero-trust concepts
- VPNs: WireGuard, OpenVPN

Security

- Firewall configuration (stateful filtering, ACLs)
- IDS/IPS: Snort, Suricata
- Vulnerability scanning: Nmap, Nessus/OpenVAS
- Endpoint & system hardening
- Threat detection & incident response fundamentals
- Log analysis & SIEM basics (Splunk, Elastic, Graylog)
- Honeypots & deception technologies
- Security best practices (least privilege, MFA, patching, segmentation)

Systems & Cloud

- Linux (Ubuntu, CLI administration, systemd, bash)
- Windows Server 2019/2022 (AD, GPO, DHCP, DNS)
- Virtualization: VMware, VirtualBox, Hyper-V
- NAS/storage services (Samba, NFS concepts)
- Basic AWS/Azure networking & cloud security fundamentals

Tools & General IT

- Wireshark / packet capture analysis
- Technical documentation
- Troubleshooting & root cause analysis
- Windows & macOS support
- PowerShell & scripting automation
